

devfix::net::inetaddress
::get_host

TEST

```
graph RL; TEST[TEST] --> devfix[devfix::net::inetaddress::get_host];
```

The diagram illustrates a function call. A white rectangular box on the right, labeled 'TEST', has a dark blue arrow pointing left towards a larger, light gray rectangular box on the left. The gray box contains the text 'devfix::net::inetaddress' on the top line and '::get_host' on the bottom line. Both boxes have black borders.
